COLLECTABLE EXPERIENCES

TOUR OPERATOR

What is a collectable experience ?

A unique collection of never-seen-before experience packages tailor-made for each destination and purpose of travelling.

The Collectable Experiences have been designed to offer meaningful and authentic experiences as well as unforgettable memories without the slightest bit of effort.

Whether you wish to tick off your bucket list of adventures, learn a new skill or indulge in heavenly romantic escapes, these packages are set to leave you in awe.

Each package includes a minimum of two activities which are offered exclusively for guests who book any of the packages either prior to arrival or during their stay.

The guests also have the opportunity to further tailor-make their Collectable Experience of choice by adding on available activities at the resort.

The Maldivian Bucket List

USD 612 PER COUPLE

Our wanderlust for the Maldives has always been high, which is not exactly surprising considering it has one of the more rare topographies. How many nations can claim to be 99% water? Or be made up of 1,200 islets? So, we curated an experience around the must-dos, from whale shark sightings to picnics on deserted islands.

THE INCLUSIONS

A castaway beach picnic with music, sunbeds, board games, drinks, food, snorkeling and a butler.

Plant and adopt a coral with our Marine Biologist (You'll even get a follow up 9 months later)

Snorkel with whale sharks in a protected marine area and have cocktails and mocktails with traditional Maldivian canapés on the boat.
